

My name is Allen Hurst. I am a child of GOD. I have been chosen to stand and fight for ALL GOD's Children.

I accept this task, and will not fail. This is my purpose. I am a shepherd, searching and calling, for my lost sheep.

I implore you, to come home.

I have sought to communicate with the religious leaders, political leaders, and media. Beginning in September

of last year (01). I have to this day not received any communication from them. In my 43 years I have questioned

why the problems we face every day can not be solved. You see the problem is not the ideas or programs, it is the

people who administer them and us as a society, for allowing them to get by with it. RESPONSIBILITY.

WE the PEOPLE, have a responsibility, we have to participate in the process. When we fail in our responsibilities the government feels it has to pass a new law or create a new agency. The Constitution sets clear guidelines and instructions for our leaders. Our Constitution affects the United States of America only.

The International body of government is the United Nations. I am not anti-government, governments function

is dictated by its people. What we have is misunderstanding of purpose and function, caused by negligence, greed, and ignorance.

I see the world through GOD's eyes. GOD gives us the right to choose, he also gives clear instruction on the consequences for making the choices, good or bad. Each of us must be prepared to stand before GOD and answer for the choices we make. The key to making good choices is education, seek the truth, seek understanding,

through this you will gain Wisdom. Life is a learning process, don't give up. What we need is a single voice to give us hope, guidance, and help. Someone who is independent from the corruption of the world. Someone

who believes in YOU. Someone with a vision of equality and justice for ALL. I stand before you and

GOD, as that someone. If you are tired of the way things are, and want a peaceful world that we can ALL share,

then you must empower me with your support. There has never been anything like this in the history of the world,

You have the opportunity to form history, it is in your hands. Here is how you can help to change the world.

Contact me and offer your voluntary support, I stand at the door and knock. This invitation is open to ALL.
