Angel

Good Day and Peace from the Father, Son, & Holy Spirit!!!

On Sunday, May 29, I took my Angel to the Bonne Terre Park; it was a beautiful morning. I find this most difficult and I am sure most folks could care less, but, nevertheless I must do this. When we got to the park we went to the small gazebo and sat on the picnic table, actually I sat on the table and I left Angel on the ground, she wanted to sit with me on the table, so I picked her up and sat her beside me and she wanted to be on my lap, as she got on my lap she slipped and fell, I watched her fall and she hit the bench seat and then the concrete, she laid there motionless, I picked her up and could feel her heart beat but she could not move and she was not breathing, I cried out to my Father, no, please no, I blew breath into her nose, she died in my arms. She gave me reason to be, she depended on me, and I failed her.

I took her and buried her next to her mom, who last fall lost her life, we were goin fishin and a wild beast killed her. What I would like folks to understand is this:

We humans, are different from the other animals in the world, Yes, God Loves All His Creations, We are created in His image. And the things we see and hear in the world are a reflection of us. So I strongly urge the powers that be, the folks who have been elected, to care for us, take their jobs a little more serious, it is not about finding fault or getting the upper hand on your opponent, We are One People, Children of the Most High God, shouldn't we act accordingly?

I come from God to help you, God sent me, I could not do what I do on my own, At this point in time It would be a whole lot easier and convenient for me to just disappear into nothing and be done with it, but I cannot, so I Live, and I Love, and I will continue to do so until God tells me otherwise.

I know and I feel your loses, your pain, your questioning why? And there is but one answer, Love, We are to love each other, that is our only hope and solution to all the evil in the world. My Peace I give to you, not as the world gives it, they have no love, and therefore they have no peace.

Choices, it is all about the choices we make, let us choose the tree of life, and let us choose love, for God is Love.

In solving problems, one must reduce the issue to its simplest terms, the basics, because all complex matter is made up of basic building blocks, yea it is atomic and elementary my dear, but that is only the physical part, the Spiritual is

just as important, if not more important, because without the Spirit, the heart of the matter, we are just animals, and we will kill ourselves.

I stand upon these and all the words I have been given to give to you, you have the choice to accept them or not, But know this, I do not receive monetary compensation for what I do, yet, I find a way to continue to do it, not for myself, for God and for you, Because God Loves All His Children. You see, because I have no money, nor any desire to deny God and bow to man, I am at odds with the man made world, which is built on the love of money, of which apparently they cannot make enough of. Money is not the answer folks, neither is politics, the Kingdom of God is the only answer, and the gospel of Jesus, the Christ, is the only way to get there. And it is not about the hereafter, cause if you wait until then to start living, you will have missed the boat, these things cannot be taught from books alone, one must live them to learn them, which is what the Tree of Life Center is all about, so I ask you folks: If you really want to see and hear good things, the truth, the honest to God's Truth, lend us a hand, loan us a dime, come see and hear for yourself, We can and will make a difference in the world, just say no, to the lies and deception the world has to offer, and say yes to God.

These things I ask in the name of the Father, Son, and Holy Ghost!!!

Forgive me.

With All His Love,

Allen Dale Hurst
