To the governments of the United States of America:

Please, stop, whatever you are doing and get your Constitutions, read them however many times it takes to clarify in your heart and mind as to what your duties and responsibilities are, they are spelled out.

May I bring to your attention specifically, Article 1, Section 7, 8, 9, 10. And nowhere in Article II do I find that it is the Presidents duty or power to create jobs.

The Bill of Rights, gives the States and ultimately the People their rights to [enjoyment of the gains of their own industry](#).

We have a very serious breach of the agreement between our governments, and the People. This is the reason for the economic and social issues we are faced with today. The legislatures have over legislated to the point that the people are crippled by the very laws that were intended to give them freedom from oppressive rule. May I suggest Forgiveness, Knowledge, and Understanding, in your endeavor to correct and restore our rights and privileges? Thank You for your time and consideration in this matter, as it is very serious and urgent, for the relief and restoration of our great nation's health and happiness.

Signed this 8<sup>th</sup> day of August

In the year of our Lord, 2011
