

Good day and Peace, from He who loves you, He who died for you, and He who lives for you!!! The most important knowledge and understanding one needs to know about life is free for the asking. The government has legislated its self into every aspect of life; yet, it claims not to know what causes sickness, diseases, and hopelessness. It claims to be a nation under God, yet, does not practice love, compassion, forgiveness, honesty, or righteousness. They have allowed corporate entities to rape, rob, and pillage our resources. While the energy corporations are enjoying record profits, the folks who put their hands on the resources to make and deliver the product are losing their homes, property, and lives. While the politicians legislate themselves and their friends into financial security, We the people must sacrifice and hang on veiled promises of help is on the way, the help never makes it this far down the economic ladder. The middle men, sub-contractors for government services, eat up the residue of funds.

People need a place to call home, where they feel welcome and secure. People need good nutritious food to eat. People need good and positive things to do with their time and energy. We stand in solidarity with all people who have lost their home, property, children, mom, dad, job, friends, trust in their fellow man.

I talk about what I see and hear with my own eyes and ears. I have personal experience in the cause and effects of your policies, as Jesus says, you have done it to me, and you have done it to the least of us. Thinking in your mind that no one cares or sees what you do in secret, God cares, God sees and hears and feels, I am a witness, an eye witness to your evil ways. If the government and corporate entities claim to be partners with God in making the world a better place for all, why do they not include God in their plans and decision making? Here again, there is no profit in selling God. God is owner of all that is; you make your money from selling His property to His children. When He gives freely to all.

If you want to see and feel real change in your life, come, join with Tree of Life Center and We will re-build our world, according to the will of God. Change requires action, not the same old action, new action.

If I could accept and conform to the ways of the world, I would. I am minding my own business. I am God, you are my business, whether you like it or believe it, it is the truth.

The media and the world leaders will listen if you demonstrate to them, our solidarity, as long as they can keep us divided and under their control, we will continue to be the ones who pay for their evil deeds in the short term, for there is no escape from the judgment of God. We the people have suffered enough, let us end this charade.

As I have said before, if I were a criminal, I would have no complaints at all, for I would be a rich man, and have no need for anything that could not be bought or stolen.

I am a common man; I come from common folks. I have no interest in being rich and famous in mans eyes, my honor does not come from man, I honor my Father, who honors me.

And if you have not figured it out yet, we are in a conflict with the rich and greedy, and you have a choice to make: are you with them, or are you with God?

Scripture says, God is with the poor and needy, the meek, the righteous, and the peace makers, those who do His will.

The kingdom of God is the only hope for the future of mankind upon the face of the earth. For those who think that they will simply float up into the air, after living a life of excuses and saying there is nothing that can be done, you are still wrong.

I am presently facing the choice, to live or die, God wants me to live, if you agree with God, please send help.

In the name of the Father, Son, and Holy Spirit,

Allen Dale Hurst
