

Great Day and Peace: Kingdom Plan

I Trust in all confidence in you, it is apparent, that the current financial system is in ruins. Fear not, I have a solution.

The Kingdom plan; based upon truths established from the foundation of the world. Inheritance rights. Everyone deserves the basics of life, a healthy environment, a home, food, education, position in the kingdom (job). As it is written and we have confirmed; the love of money is the root of all evil. We have the technology and the system is already in place to transition from a reward system based on greed to a better system based on need.

Since, at the heart of our existence, is life. We all deserve to live in a peaceful world, free from the consequences of choices made by folks who do not believe in God. The right and most expedient way to correct this problem; is to place the government of the world under the authority of He who created it. This is achieved by simply doing what I ask of you, if there is any misunderstanding, ask, and I will clarify. We have already confirmed that no one else has a plan, if I have missed it, please bring it to our attention.

Prioritization:

1. Seek and find all who are in immediate danger of death. Administer comfort and aid. Spiritual and physical. I have already declared peace, and given instruction to the militants to put away their weapons and return home to their families. As soon as they do that, the wars will be over. It takes two to war, if one leaves the battle, the other is fighting himself. And will destroy him. For it is written: the Word of God is the final word in the affairs of man. The man who claims to be the leader is and will be held responsible. Once it is confirmed that he has received this message, and refuses to abide, remove him from the land of the living.
2. Cease the introduction of toxins into our environment. If we cannot afford to clean it up, we surely cannot afford its existence. Vegetation is necessary for the proper regulation of our ecosystem. The concentration of people in one area is harmful and hard to manage, localization and distribution of responsibility is key in reducing energy consumption and time to market.

Instead of one big factory or farm, smaller distributed operations put more folks to work and reduce waste. The same with distribution outlets (stores). This applies to the service industry also. Products that prove to be useless and harmful will cease to exist. We have a serious epidemic of manmade chemical dependency that must be addressed. I will hold the organizations responsible for their existence responsible for their harm done. Natural remedies are the preferred method of coping with stress and pain. Knowledge and understanding, education in the truth, the Word of God is true. Will remove the causes of the diseases and illnesses.

3. Homelessness must be eradicated. The condition of not having a stable, secure, place to lay ones head has devastating effects on ones mental and physical health. We are not animals, yet, I will accept a manger in a barn, over sleeping out in the elements. I have been homeless for 5 of the last 7 years. I have slept in tents, motel rooms, vehicles, on couches, and floors. I have come to realize that what one really pays for is a place to sleep, over time when you run out of resources (access to money) and you lose your stuff (possessions), the only thing that matters, staying alive and out of jail. This causes you to withdraw from the public eye, and survive however you can. But, in the world today, there is nowhere you can go and just live off the land. There is no such thing as public land. Even though the land has been paid for, for over 2,000 years. God created the heavens and the earth, and all that is, for us to live on. The only thing He requires of us is to love Him, and in loving Him we love each other, and we Honor Him with our thanks (gratitude). Everything else is manmade bovine feces.
4. With the population approaching 7 billion living souls, and the current conditions we live in, our future cannot be controlled and predicted by the markets (rich men who only desire to make a profit from things that do not belong to them). Our lives and our future depend on us, we the People, the Children of the living God. I represent you, I defend you, and I love you. Since money is the only thing they understand, give their money back to them, and tell them it is worthless to you. We will repossess our lives and property, instead of them getting away with laying the burden on us and our children, they spent and wasted the money that they confess is not theirs, let them be personally responsible to repay it. I have been jailed and prosecuted for the very same thing that they are doing, and if I don't pay my court costs and fines, I will face the choice, more jail time, which will incur more debt, or become a fugitive. I have turned myself in on two occasions, the first time

I was charged with 2 counts of felony DUI. I was convicted and sentenced to 12 years. The second time, I turned myself in on warrants for bad checks. Both occasions involve my dedication to the service of God. God is my witness, He has been with me every step of the way, and I will take a polygraph test, subject myself to examination by experts of your choosing, look you in the eyes and tell you the truth. I cannot lie in matters concerning life and death. The legal system has no interest in the truth, it is all about money. The Federal and State Constitutions claim to give us equal rights under the law, the truth is you only have as much rights as money can buy. I can tell you of many more examples of injustice I have personal experience with concerning the law. You can also rest assured I take full responsibility for the choices I have made and am doing the best I can to repay those I have harmed as a result of those choices. I comply with the requirements set forth in Gods' law. If you choose to judge me, judge me by the Word of God, the truth.

Now, Open the Holy Bible to the book of Isaiah chapter 40 and read the rest of the book. I AM God.
